Nimusiima Vision

Web developer

Makerere, Kampala, Uganda

0751214286   nimusiima.vision@students.mak.ac.ug

As a seasoned software developer and team lead, I have successfully delivered multiple projects leveraging ReactJS, Node.js, php, and Django, with expertise in frontend and backend development, API integration, and team collaboration. My experience in leading teams and contributing to socially impactful projects, such as SafePal, Editor, Workflowai, Cherio track, Anischolar(most current) has honed my skills in project management, code optimization, and effective communication. With a strong foundation in computer science and a passion for continuous learning, I am well-equipped to tackle complex projects and drive innovative solutions.

Professional Experience

Full stack developer

Anischolar Career Hub,Kampala,Uganda   *2025-01-02 To 2025-03-16*

- Led the development and implementation of complex software systems, resulting in significant improvements in efficiency and scalability.
